

TNGC1000600NLS

EZIPit® 1000 Polypropylene Reducing Cone, Dn1000 x dn600 Spigot x Socket (MF) RRJ (without Ladder Support Brackets)

Application

Buried gravity and industrial sewer applications within the EZIPit1000 system, transitioning from 1000mm risers to 600mm covers while supporting cover loads

Features

- 1000mm to 600mm transition
- High strength support
- Lightweight injection moulded
- Corrosion resistant & level adjustable

Technical Data

Product Properties

Material	Other
Colour	Black
Approximate mass	46.7 kg
Additional Information	Add 1 x 600 mm Ring GERSEW600, No Brackets to support ladder

Product Dimensions

Nominal Size	1000 mm
--------------	---------

Jointing Details

Joint type	RRJ
Rubber ring material	Styrene Butadiene Rubber (SBR)

Material Properties

Mechanical

Poissons ratio	0.45
----------------	------

Thermal

Coefficient of thermal expansion	$15 \times 10^{-5} / ^\circ\text{C}$
Allowable Operating Temperature - Degrees	Up to 50°C; rerating applies above 20°C.
